DIRECTIVE NO. 2006-200

CLASS 1 CONVERSION RATES

Section 27(2)(a) of the *Alberta Milk Marketing Regulation (AR151/2002)* describes milk classification. Pursuant to Section 28(3) of the *Alberta Milk Marketing Regulation (AR151/2002)* Alberta Milk sets conversion rates for the purpose of determining the volume of Class 1 milk used in the following processed milk products.

Definitions

- 1 The definitions in the *Alberta Milk Plan Regulation (AR150/2002)* and the *Alberta Milk Marketing Regulation (AR151/2002)* apply to the interpretation of this directive.

Conversion Rates

- 2 One litre of the following milk products equals 100% class 1 milk:
 - (a) standard milk;
 - (b) homogenized milk;
 - (c) 2% partly skimmed milk;
 - (d) 1% partly skimmed milk;
 - (e) skim milk;
 - (f) 10% cream;
 - (g) 18% cream;
 - (h) whipping cream;
 - (i) heavy cream;
 - (j) buttermilk.
- 3 One litre of chocolate partly skimmed 1% milk equals 94% class 1 milk.
- 4 One litre of chocolate partly skimmed 2% milk equals 93% class 1 milk.
- 5 One litre of chocolate milk equals 92% class 1 milk.
- 6 Processors developing new milk beverages may apply to Alberta Milk to determine the conversion rates.

7 One litre of eggnog equals 80% class 1 milk.

Exemption

8 This directive does not apply to goat and sheep milk.

Coming into Force

9 This Directive comes into force on March 3, 2006.
