Average Hourly Wage:	See Wage Grid

Duties

Dairy Herd Operators performs tasks such as the following on dairy farms:

- Monitor the health and well being of the dairy herd
- Milk cows
- Recognize and report health problems
- Ensure that water is available and the cows are fed the correct amount and type of feed
- Maintain equipment and buildings
- Keep limited paper and electronic records -
- Transport feed and supplies
- Operate and maintain equipment
- Knowledge and rudimentary service of milking equipment
- Perform general farm duties

Working Conditions

Dairy Herd Operators have the opportunity to interact closely with dairy cows. They may work split shifts to coincide with the milking times. Milking is done inside; however, other duties are often outside in all kinds of weather. Although automation and mechanization have helped to make the work less tedious and physically demanding, repetitive manual labour is often required. They must follow safety precautions to avoid injury when working with machinery and tools, wear protective clothing and follow good animal hygiene practices to prevent or control the spread of diseases. Modern barns are well ventilated and manure is flushed out regularly. Dairy Herd Operator may routinely lift items weighing up to 20 kilograms or more.

Farm workers are not covered by labour standards, occupational health and safety, or Workers Compensation legislation in Alberta.
